TRANSIT Mobile Device Application

Transit is a mobile app providing real-time public transit data. The app functions in over 175 metropolitan areas around the world. Transit was designed for aggregating and mapping real-time public transit data, crowdsourcing user data to determine the true location of buses and trains. Transit was first released in 2012 for iPhone and soon after launched the Android-compatible version. It offers users schedules and alerts for multiple modes of transportation where available, including bus and rail.

Descriptions and Disclaimers

About the Mid-Minnesota Development Commission: The mission of the Mid-Minnesota Development Commission (MMDC) is to provide technical assistance to government, businesses and local organizations; administer state and federal programs, and coordinate multi-jurisdictional activities to maintain or enhance the quality of life in the Counties of Kandiyohi, McLeod, Meeker, and Renville. The MMDC is a political subdivision guided by a Board of Commissioners from a cross-section of constituents. The Commission receives financial support for its activities from a variety of sources, including local tax levies, federal grants, state grants, and contracts for technical assistance. There are nine active RDCs in Greater Minnesota.

About the Mid-Minnesota Regional Transportation Coordination Council (MMRTCC): The Mid-Minnesota Regional Transportation Coordination Council, or MMRTCC, works to bridge transportation gaps and provide transportation solutions throughout our four-county region, so that all our residents can fully participate in and contribute to community life. We are a collaboration of various stakeholders including health-care providers, human service agencies, and others who serve people with transportation barriers. Most of our funding is provided by a grant from the Minnesota Department of Transportation.

Legal Information and Disclaimer: The information in this directory may change between printings. Please contact the transportation provider directly for the most up-to-date information.
